(54) Title: BACK LIGHT ASSEMBLY AND LIQUID CRYSTAL DISPLAY APPARATUS HAVING THE SAME

(57) Abstract: The backlight assembly (100) includes a light source and a light guide plate (40). The light source includes a plurality of light generating parts (10, 20) that generate a first light. The light guide plate (40) includes side surfaces (41, 43), a light exiting surface (47) and a light reflecting surface (45). The light exiting surface (47) has a plurality of luminance-compensating patterns (47a). The light reflecting surface (45) faces the light exiting surface (47). The first light enters into the light guide plate (40) via the light incident surface (41, 43) to form a second light. The second light is reflected on the light reflecting surface (45) toward the light exiting surface (47) to form a third light. The third light exits from the light guide plate (40) via the light exiting surface (47). The luminance-compensating patterns (47a) uniformize a luminance of the third light. A thickness of the light guide plate (40) decreases in a direction from the light incident surface (41, 43) to a center of the light guide plate (40).

# INTERNATIONAL SEARCH REPORT

International application No.  
PCT/KR 03/01510-0

## CLASSIFICATION OF SUBJECT MATTER

IPC<sup>7</sup>: G02F 1/13357, G02B 6/00

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC<sup>7</sup>: G02F, G02B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EPODOC, WPI, PAJ

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 5123077 A (ENDO et al.) 16 June 1992 (16.06.92) <i>fig. 1,2,4-6; column 3, line 39 - column 7, line 59.</i>	1,2,5,8,12
Y		7,9,13
A		3,4
X	EP 0663600 A1 (NITTO J. K. KABUSHIKI) 19 July 1995 (19.07.95) <i>fig. 1-3,7,8; column 4, line 46 - column 9, line 15.</i>	1-3

☒ Further documents are listed in the continuation of Box C.

☒ See patent family annex.

\* Special categories of cited documents:

„A“ document defining the general state of the art which is not considered to be of particular relevance

„E“ earlier application or patent but published on or after the international filing date

„L“ document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

„O“ document referring to an oral disclosure, use, exhibition or other means

„P“ document published prior to the international filing date but later than the priority date claimed

„T“ later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

„X“ document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

„Y“ document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

„&“ document member of the same patent family

Date of the actual completion of the international search
